DROPS
TRADE MARK
CURES
RHEUMATISM
LUMBAGO, SCIATICA
NEURALGIA and
KIDNEY TROUBLE

"DROPS" taken internally, rid the blood of the poisonous matter and acids which are the direct causes of these diseases. Applied externally it affords almost instant relief from pain, while a permanent cure is being effected by purifying the blood, dissolving the poisonous substance and removing it from the system.

DR. S. D. BLAND
Of Brewton, Ga., writes:
"I had been a sufferer for a number of years with Lumbago and Sciatica in my arms and legs, and tried all the remedies that I could gather from medical works, and also consulted with a number of the best physicians, but found nothing that gave the relief obtained from 'DROPS.' I shall prescribe it in my practice for rheumatism and kindred diseases."

FREE
If you are suffering with Rheumatism, Neuralgia, Kidney Trouble or any kindred diseases, write to us for a trial bottle of "DROPS." I shall prescribe it in my practice for rheumatism and kindred diseases.
"DROPS" can be used any length of time without acquiring a "drug habit," as it is entirely free of opium, cocaine, alcohol, benzoin, and other similar ingredients.
Large Size Bottle, "DROPS" (500 Doses) 50c. 60c. For Sale by Druggists.
SWANSON RHEUMATISM CURE COMPANY,
Dept. 50, 140 Lake Street, Chicago.

NEW ENGLANDERS OUT WEST

Tide of Travel to the Mississippi Valley in the Early Days.

The Northwest territory, out of which were carved the states of Ohio, Indiana, Illinois, Michigan and Wisconsin, became the quick and steady goal of immigration from New England, and that New England stream into the west has been so constant and so great that there has long been vasty more of New England west of the Hudson river than east of it.

To-day we are indeed seeing strong counter currents. As there are New England societies in many western cities, made up of men whose memories turn back fondly to the old home and whose steps also turn thither more and more in Old Home week, so now associations of men of western birth are multiplying in our eastern cities. New York has a large Ohio society and we hear of the annual Iowa dinner and Illinois dinner in the metropolis, and Boston now has her own western society, organized last year, with already 100 members.

The old town of Rutland, Mass., has well been called "the cradle of Ohio." High on the Worcester county hills, so salubrious that it was chosen by common consent as the best place for our state sanitarium for consumptives, the central town of the state, Rutland, was the home of Gen. Rufus Putnam, and from there he went out to found the state of Ohio.

A second prominent "cradle" was Danvers and the region roundabout, the immediate sphere of the influence of Rev. Manasseh Cutler, Putnam's co-worker, but it is right to give the home of Putnam the preeminent place in our celebrations of the beginning of the movement of New England into the west. Putnam's old house in Rutland still stands, well preserved, secured as a memorial a few years ago through the efforts of Speaker Hoar and other enthusiasts, and with its rooms admirably restored and filled with an interesting historical collection, it is visited each year by hundreds of people from the west and east alike.

RAZOR USED BY WOMEN.
Down That Is Regarded as an Imprecision Removed from Upper Lips.

"Well," she's the pioneer in a new line of trade for us, certainly she is," said the drug store proprietor after the door closed behind a stunning brunette, relates the Minneapolis Journal.

"I never thought of it before. The safety razor should certainly be a godsend, perfect treasure, to fair ones with a tendency to superfluous hair on the face. Without doubt she will tell some one else in confidence and the sale of these safety razors will go on. I ought to have given her that razor for nothing, because she will prove to be the vanguard of a host of women customers, when she finds how smoothly the thing works."

"You know, the females are all afraid of the strap and the shaving steel, and they couldn't keep an edge up at all. The safety solves the question. Gee, what a thought." And the drug man saw himself the Columbus of a new idea.

According to the drug men it is a common thing for women of the middle class to buy lather cups and brushes and razor strops for their husbands. They are accustomed to shopping for men and therefore the safety razors can be bought without any comment being passed or any unfortunate hazards ventured as to what use the instrument is really intended.

"Formerly, you know," said the drug proprietor, "it was a mark of beauty for a woman to have a faint dark line on her upper lip and down her oval cheeks, but that day has passed. The main care now is to get rid of the hirsute growth without leaving any traces. A woman wielding a flat razor would be as curious. A caseknife would be as effective and not half as dangerous."

"Secrecy is the main thing and they hate to go even to a dermatologist for removal of the incipient beard. It is a family secret, a skeleton in the closet."

Czar Restored Watch.

While in Moscow some time ago a correspondent of the London Times had his pocket picked of watch and all the money he carried. The timepiece was quite valuable and the newspaper man made a good deal of noise about his misadventure. In a day or two just as he was leaving for home a young officer of the imperial entourage restored the missing articles. The czar, hearing of the robbery, had directed the governor of Moscow to recover the correspondent's property at all hazards. The governor sent for half a dozen known criminals and informed them that unless they found the watch and money he would send them to Siberia. The threat was sufficient.

Picturesque Workwomen.

The women grape pickers of California are picturesque. There is just a dash of Indian to give color to the cheek, a touch of Spanish, and just a suspicion of the old blood that built the wonderful cities ages ago in lower Mexico, making a combination attractive to the lover of the picturesque. Dark hair, flashing eyes, intelligent faces, perfect courtesy, intelligence that but needs suggestion to lead to higher grades, indeed, one could not look at those pickers, these choirs, as the tenderfoot called them, picking grapes, to see that it required but clothes and environment to make a remarkable change.

Western Canada Lands.

You are Overlooking a Great Opportunity if You Fail to Investigate.

There is no sufficient or permanent reason why lands that will produce from \$15.00 to \$30.00 worth of wheat per acre each year should long remain at so low a price. The only reason applies to all new countries. We have as yet more land than people. The flood of immigration for the past 20 years swept over the Western States of the Union and filled them up and land has advanced and made fortunes for its holders. The flood is now headed toward Western Canada and conditions are changing and land advancing. The ambitious and far-sighted man will get in on the ground floor.

What do You Think of This Table?

Manitoba Wheat Productions in Comparison.
The following table will give some idea of the producing capacity per acre of this land as compared with that of the wheat raising belt in the United States.

	Av. 10 yrs. Bu.	1903 Bu.	1902 Bu.	1901 Bu.	1900 Bu.	1899 Bu.
Manitoba	21 7	16 4	26 0	25 1	8 9	17 1
Kansas	12 7	17 1	10 9	18 5	17 7	9 8
Minnesota	14 2	13 1	13 9	12 9	10 5	13 4
North Dakota	12 7	12 7	15 9	13 1	4 9	12 8
South Dakota	10 4	13 7	12 2	12 9	6 9	10 7
Iowa	14 7	12 1	20 9	17 1	12 0	10 3
Missouri	11 6	18 7				

*Winter wheat, other figures being for spring wheat.
In the Northwest Territories—being much more recently settled than Manitoba—the records do not go back so far, but they show an average yield per acre equal to that of Manitoba, and for the last two years as a matter of fact, greater.

Can You Afford to be Indifferent?
Take Advantage of it, it is the Wise Thing for You to do.

The following shows the experience of one man:
Twenty years ago Mr. Hugh Herin, of Chicago, was the owner of 200 acres of Illinois land which had come to be worth \$60 per acre. He decided to sell at this price and with the proceeds purchased 1300 acres in Minnesota; he improved this tract and enjoyed a greatly increased income. A few months ago he sold his Minnesota land at \$65 per acre and has purchased 10,000 acres in Western Canada which he proposes to develop into a banana farm. Certainly this was a wise decision in each case on the part of Mr. Herin. It is much better to have 10,000 acres of equally good land here in Western Canada than to have 200 acres in Illinois. The same opportunity is open to thousands of men owning small tracts of high priced land to come to this Western Country and do the same thing. [Any] Holt County man owning 160 acres can do the same. If Mr. Herin had no thought of the future welfare of his posterity he was well repaid by providing for a much larger income for himself.

Do not imagine this is a wilderness or a back woods country; it is a land of activity and under most modern methods. To illustrate there is a farm of 1200 acres near Brandon, on which most of the power, including the threshing of 700 acres of grain, is provided by electricity. There are immense farms on which the plowing is practically all done by steam power and nowhere can grain be grown at less expense. Certainly there is no good reason why Missouri lands of no better soil nor capable of producing no more dollars worth of grain per acre than these, which are within a single day's ride of St. Paul, should sell at ten times the price.

I am in the Land Business and cover Manitoba, Saskatchewan and Alberta. I have wild and improved Lands, large and small farms, ranches, coal fields, timber limits, etc. I will take pleasure in showing either a large or small proposition. I represent the buyer and procure lands for my clients at the lowest possible prices and on the best terms.

I Want to Hear From Every Man in Holt County

1. Who sells his farm and must have a new location.
2. Who lives on leased or rented land.
3. Who is burdened with heavy mortgages.
4. Whose lands are poor or unsatisfactory.
5. Land owners who desire to enlarge their holdings to provide for maturing children.
6. The business man or financier who wants to buy large tracts of land for colonization or speculation purposes.

I will mail to any address, free of charge, maps, printed matter and all information. If you write to me I will write to you.

JOHN HAFNER,
Winnipeg, - - Manitoba.

PIES MADE BY MACHINE.

Plagues of Fastery Turned Out at the Rate of Eighteen a Minute.

A was an apple pie made by the new pie-making machine that is attended to by one man and three boys and turns out from 16 to 18 pies a minute. The machine is ten feet long and 20 feet wide. An electric motor furnishes power and a gas jet keeps the forming dies warm. Over the machine is suspended a tank with "filling" for 400 pies, and in it an agitator revolves to keep the material from blocking the outlet. After the paste for crusts has been properly mixed it is weighed and cut into properly mixed pieces by a dough divider. A tray full of lumps of dough for bottom crusts is placed at one end of the machine, and another tray containing lumps for top crusts at the other end. At the rear is a stack of plates automatically fed by a ratchet. A magnetized arm swings around, picks up a plate, and places it on a die made to receive it. A piece of dough is placed on the plate and the next movement brings it under a die which forms the lower crust. Then the fruit is deposited from the tank and the plate moves forward. By this time another lump of dough has been flattened out and stamped with an initial, such as an L for lemon, while an automatic bellows blows a puff of flour over the dough to keep it from sticking. The next movement brings the filled pie and this upper crust together, one operator being stationed here to adjust the top cover if necessary. Then the covered pie comes under the edging die, which cuts off all the scraps, and the pie passes forward on an apron which leads to the oven.

THE BEAUTY OF MACHINERY

It Harmonizes with the Divine Laws That Control the Universe.

Certain people imagine that machinery is ugly, uninteresting and disagreeable. Had they a finer and clearer vision, says the Reader, they would see that the ugliness is in the misuse of the machine by incompetent or careless men and women. The well-made and well-cared-for machine has a beauty of its own that comes of strength, simplicity, precision, truth and harmony with the divine laws that control the universe. We may stand beside a giant band saw while, with screaming clamor, it rips a huge log into materials for a home. To the clear vision it is luminous with a strange beauty, a beauty we are only just beginning to understand. Its brilliant blade flying with incredible speed is making a roof-tree to shelter a happy mother.

In another place we see a machine whose purring cutters are shaping beautiful white pine moldings of classic form to decorate a home—making a million feet of moldings, all alike. Perhaps some sensitive soul cries: "How distressing; so mechanical, so monotonous! How sad it all is! Dear soul! Creep back to your dusty studio. Is it not better that 10,000 homes should have graceful forms on stair and sash and door, than that one home have hand-made moldings and the others have none at all? The cutters of this machine can and do accurately produce the splendid curves designed by the sculptors and the architects who made Greek temples glorious. The machine is a missionary of the beautiful, bringing the best art forms to every home, so that even a door frame may be altogether lovely. Machine moldings are not ugly because cheap. They are beautiful and cheap."

TELLS TIME BY HIS PALM.

Maine Man Who Notes the Flight of the Hours by Looking at His Hand.

Walter Nason, living in Newport, Me., has the mysterious ability of being able to tell the accurate time of day by simply looking in the palm of his hand as another would look at his watch. No one, reports the Thurston (Me.) Journal, has been able to learn his method and, in fact, he himself can not explain the source of his power.

This uncanny knowledge is not of recent origin, he having used it for many years. When he first began to use this gift, as he considers it, he purchased a watch, then looking at his hand to ascertain the time he would compare his fingers with those of the watch, finding his own always correct. Many of the people about the village who doubted his power and who looked upon it as a "fairy story," have by their own observation and experiments become convinced of its truth.

Walter Nason was born in the town of Paimyria 40 years ago and came to Newport when he was about 15 years of age. He attended the district school in Gilman, after which he found employment in different mills, at one of which he is working at the present time.

Telephone Age.

The telephone is the electrical triumph of 1906. Its last year's growth has been unprecedented. It has been much greater than was dared to be forecast from the most favorable reports of the previous year. In New York city alone there has been an increase of about 75,000 instruments. The telephone is now recognized as an essential part of the furnishing of every hotel and of the better equipped department houses. It is now thought necessary that a building of this kind should be fitted with a private exchange and an instrument placed with each suite. This development is typical of that in all large cities.

Church Directories.

Presbyterian Church.
James McFarland.
Bible School at 9:30 every Lord's Day.
Y. P. S. C. E. at 7 p. m.
Prayer Service Thursday evening at 8 p. m.
Preaching every Lord's Day at 11 a. m. and 8 p. m.
Woodville every Sabbath at 3 p. m.
Everybody cordially invited to attend the above services.

Christian Church.
Elder W. A. Haynes, Pastor.
Bible school every Lord's Day 9:30 a. m. Rob't. Callow, superintendent.
Y. P. S. C. E. every Lord's Day 6:30 p. m.
Prayer meeting every Thursday evening at 8 p. m.
Preaching every second and fourth Lord's Day, morning and evening.
Meeting of official board every first Lord's Day all cordially invited to attend all meetings of the church.

M. E. Church.
A. J. Brock, Pastor.
Preaching every Sabbath morning and evening at 10:45 a. m., and 7:30 p. m.
Sunday school every Sabbath at 9:30 a. m. F. S. Morgan, Supt.
Prayer meeting every Thursday evening at 7:30 p. m.
Epworth League Junior every Sabbath 3 p. m., and senior one hour before preaching every Sabbath evening.
Business meeting of the official board the first Monday of each month, at 4:30 p. m. J. A. Kreek, secretary of the board.
